

## Pre-Adoption form

The following questionnaire is used as a basis to know you as a possible adopter and to find the best dog-owner combination, so that both are happy after the adoption.

Adopting an animal is an important decision since the animal will form part of your family and will live many years with you. Therefore you should consider, as far as possible, future events that may affect that animal. It must be filled in by the person who will be responsible for the animal.

All the data contained herein will be totally private and will only be accessed by the people in charge of the adoption.
